

A REVOLUTIONARY GEOCOMPOSITE TO PLAY SAFE AND DRY

SHOCK ABSORPTION

MacSport provides excellent impact performance in compliance with FIFA Quality Programme requirements for football turf

HIGH DRAINAGE CAPACITY

MacSport is the perfect alternative to the traditional solution of aggregates and drainage pipes providing a higher drainage capacity

QUICK & EASY TO INSTALL

Rolls are extremely practical and easy to handle, reducing both installation activities and time

FULL COMPLIANCE WITH FIFA REQUIREMENTS

Tested according to the most advanced and internationally recognized standards

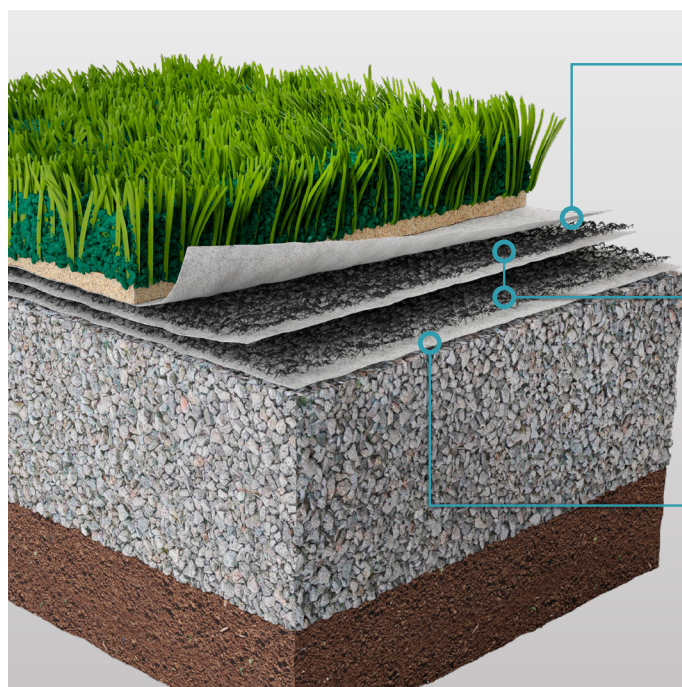

COST-EFFECTIVE

Better performance than traditional systems with overall reduction of project costs

ENVIRONMENTAL FRIENDLY

- 100% recyclable
- Reduction of sand/gravel extraction and use
- Reduction of track movements due to the less materials to be transported

Nonwoven geotextile

Developed to act as a filter, it allows water from the artificial turf to easily enter the double Geomat core, enhancing the drainage along the plane of the geosynthetic and providing faster and easier drainage performance.

Double core of M-shaped Geomat

Designed to maximise drainage performance and minimize the risk of injuries to players by decreasing the constant force and shock applied to the body when running and striking the ground.

Nonwoven geotextiles/ Geomembrane

Engineered to accommodate horizontal and vertical drainage functions; it can be provided either with permeable nonwoven geotextile or impermeable geomembrane in order to meet clients' requirements.

MACSPORT

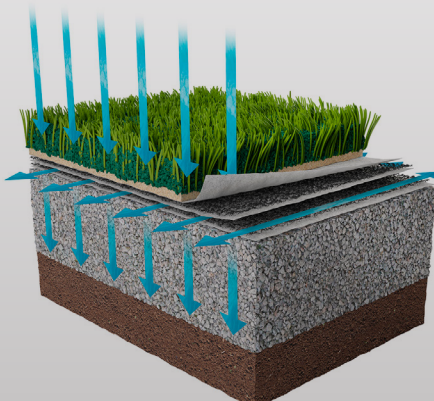

Shock absorption

OPTION 1

Vertical and horizontal drainage

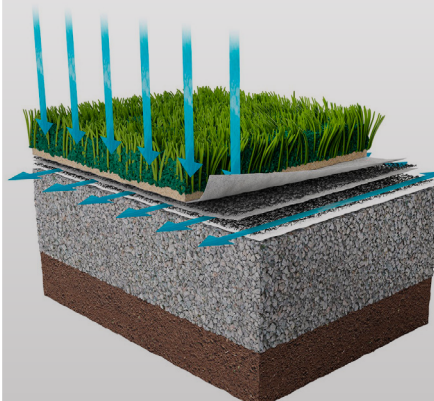

Bottom layer: Permeable nonwoven geotextile

OPTION 2

Horizontal drainage

Bottom layer: Geomembrane

2 in 1: MacSport combines **drainage-enhancing action** with **shock absorption functions**

Our drainage geocomposites are covered by certified EPD. We promote our commitment to transparency as a means of improving the environment and increasing sustainability, providing objective, reliable and comparable information about the life-cycle environmental impact of our products. Download the Environmental Product Declarations on maccaferri.com/EPD.

HOW TO INSTALL MACSPORT?

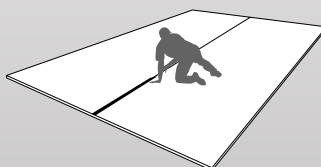

1 UNROLL THE FIRST ROLL OF MACSPORT

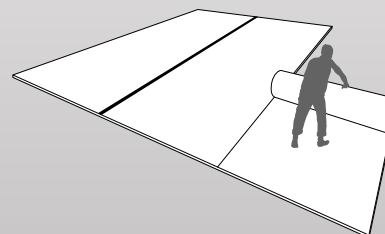

2 DEPLOY THE SECOND ROLL

3 JOIN THE ROLLS WITH TAPE

4 PLACE FURTHER ROLLS NEXT TO THE OTHERS

MacSport is easy to install thus **minimizing construction cost** and **carbon footprint** due to worksite operations
